

Are you wired for sound?

When: Wednesday 15th May, 5-8pm

Where: Jungle Studios,
143-145 Wardour Street,
London, W1F 8WB.

As part of [Radio Audio Week 2019](#), an industry-wide series of events celebrating the audio revolution, we would like to invite agency production staff to an immersive workshop at Jungle Studios co-hosted by Radioville to experience what it's like to make a radio commercial.

The session will start with a presentation from Radioville (one of the UK's leading radio production companies) on best practices when it comes to pre-production and production.

Once your minds have been filled with ninja radio production skills, you'll have the opportunity to apply that newly acquired knowledge in one of the finest recording facilities in the country where you'll explore the ins and outs of putting a radio commercial together – recording the voiceover, using music and sound effects.

This workshop is ideal for production assistants and junior producers who are looking for a better understanding of radio commercial production and who are also up for a bit of fun!

If you'd like to attend, please rsvp to liz@radioville.co.uk
